

### Acorn Wood Post Caps

Manufactured in Minnesota, Acorn Post Caps are fashioned out of single blocks of cedar, Ipê or pressure-treated pine, which means there are no joints or glued pieces to come apart. In addition, the  $\frac{3}{8}$ " inset base protects the post end grain for greater longevity. Choose from post cap sizes 3- $\frac{5}{8}$ " or 5- $\frac{5}{8}$ ". #### Boulevard

##### Inset Demi-Top Post Cap

The Boulevard is a flat top post cap with a  $\frac{3}{8}$ " inset that slides over the deck post and protects the end grain.

#### Amherst

##### Inset Demi-Top Post Cap

The Amherst Inset Demi-Top Post Cap has a simple, cove base that slides over the deck post.

#### Yellowstone

##### Inset Demi-Top Post Cap

Acorn's Yellowstone Post Cap has a low-profile Demi-Top with a tiered inset base.

#### Tucson

##### Inset Demi-Top Post Cap

The square edging on the Tucson Inset Demi-Top Post cap sets off the thin inset just along its base.

#### Tucson

##### Post Topper

This versatile Post Topper can be installed narrow or wide end up. A simple design that sits directly on top of the post, as opposed to sliding over it.

#### Pelham

##### Post Topper

The Pelham Thin Flat Top Post Topper from Acorn sits directly on top of the deck post and has a soft rounded edge just above the base.
